

STATEMENT OF PURPOSE

RS23210

This technical correction removes outdated language from Idaho Code Section 20-242A that references the penal betterment fund. The betterment fund moved from the Department of Correction to Correctional Industries with the implementation of the 1974 Correctional Industries Act. The betterment fund has not funded inmate workers not employed by Correctional Industries since that change. The majority of the funding is from revenue sources other than General Fund.

FISCAL NOTE

The bill has no fiscal impact.
